Audit of Acquisition of Green Power Rights

Dear Sir,

DNV Certification Pty Ltd is the Australian business unit of the certification group of Det Norske Veritas, a Foundation based in Norway and engaged in certification and climate change activities around the world. In particular, DNV is a Designated Operational Entity of the UNFCCC Clean Development Mechanism and an authorised auditor for the NSW Greenhouse Gas Abatement Scheme.

DNV Certification Pty Ltd conducted an audit of the claim made by Jackgreen (International) Pty Ltd that they had acquired sufficient Green Power Rights to cover all electricity sales for calendar year 2005. We found that the claim was fairly stated, as sufficient Green Power Rights had been acquired.

Yours faithfully
for DNV CERTIFICATION PTY LTD

Simon Dawes
Manager - Climate Change and CSR
